One-day • Time 10AM TO 6PM

Our Aim: Our training in mobile phone repairing is skill-oriented training. The classroom training also provides hands on practice. The right infrastructure is required to ensure that the students develop.

About the course

iPhone, Samsung and iPad is a One-day course that prepares participants to become certified in troubleshooting iPhone, Samsung and iPad, and repairing the devices to a professional standard. Through interactive discussions and hands-on exercises, participants learn setup, navigation, features, and associated services of mobile devices. Participants also learn how to maintain, troubleshoot, and repair devices. Participants' knowledge and skills are tested and reinforced by working through real-world scenarios in hands-on labs.
